

Inside 66

Please read carefully for important information about the many new Imagio features for 2008.

Folio 66

Producer's Corner...

IMAGIO FOLIO 66 NOTES:

Hello IMAGIO brothers and sisters.

We thank you for all your great requests in the last month. It's made our productions very exciting. We've got some shout outs to do so here we go:

Thanks to Danny Knippel from The Netherlands who requested some Euro Dance tracks. They were in the last Imagio and he seemed to like them a lot. Well Danny, more to come in the near future but check out "Lemon Merengue" on this installment and see how you like it.

Thanks to Sakis Korovessis, Production Director of Star FM and many other stations in Greece. He requested some cool Lounge, Atmospheric. We got three this installment. Check out "Bossa Night", "Chill Zone" and "Jazzy Junk". We hope you like them. More to come.

Thanks to Scott Chasty from Dougal Media Ireland. He requested some old style radio show organ. Listen to the sweepers called "Radio Show Organ" and "Radio Show Theatre Organ".

Thanks to Jym Geraci of KS95 in St. Paul Minneapolis. He needed cash and money cuts. We've included: "Casino Fun 1 & 2" and "Economic Crisis 1 & 2". We'll keep them coming.

Also, thanks to Scot Kirk of the Jones Radio Network for his reggae requests. Here's one more for you called "Reggae Love". Wheel and come again.

And finally, to our Ghouls and Goblins who are running out of Halloween stuff. We've got some great scary drones in the sweeper files and a bunch of Halloween FX. Just look for the word "Halloween" in the title.

Have a Very Scary Halloween

from TM Studios and the entire IMAGIO team.

Cheers,
Rob Rettberg – IMAGIO Producer
